

OCUPATIONAL HEALTH & SAFETY POLICY

Pro-Test is an Australian energy and minerals service provider specialising in downhole oilfield tools, well testing and data acquisition services. We commit to providing on-time professional service as specialists in our industry. We will work with customers to develop innovative products and flawlessly executed services to meet customer specific requirements. Implementing and managing industry standard systems and processes is crucial to the safety of our personnel as well as meeting the requirements of our customers. Full implementation and on-going compliance with a vision to seek continual improvement will underpin sustainable and responsible operations into the future.

POLICY STATEMENT

Pro-Test is committed to providing a safe and healthy work environment for employees, subcontractors, customers, and visitors. This commitment extends to ensuring our operations do not place the local community at risk.

People are our most important asset and their health and safety is our greatest responsibility. We train our management, supervisors, and employees to be accountable for a safe work environment, and to foster a workplace culture free from physical or mental injuries or incidents. This policy will be made available to all interested parties upon request, and applies to all staff, subcontractors, customers, and visitors associated with Pro-Test and its operations. To fulfil our commitment Pro-Test will ensure;

- Systematic risk-based approach to safety management - responsive to the dynamic nature of risks in the mining, oil and gas industry.
- The health, safety, and well-being of all our people and of the end users of our expertise.
- The development of an organisation where safety is fundamental, integrated, and seamless designed to achieve a level of compliance beyond legal requirement.
- Continual improvement of our safety performance through detailed review and analysis at all levels.
- Attaining recognition as leaders and innovators in safety with the best people, services, and products.

Pro-Test strives to fully integrate health and safety into all aspects of its activities through a process of continual improvement. This will be achieved by:

- Implementing and maintaining a framework that ensures the systematic management of health and safety throughout all sites and centres and Pro-Test controlled entities and compliance with legal and other requirements (where applicable);
- Setting measurable objectives and targets aimed at controlling higher risk activities and increasing awareness of health & safety.

Our principal goal is to improve health and safety and to prevent workplace injuries and illnesses at our workplace. We promote a proactive health and safety management philosophy based on effective communication and consultation, the systematic identification, assessment and control of hazards and the encouragement of innovation.

REVIEWING THIS POLICY

This Policy statement will be reviewed annually by Pro-Test from the date of the last review carried out.
